**F.8. FEEDBACK FROM EMPLOYERS REGARDING PERFORMANCE OF GRADUATES**

April 15, 2026

Elizabeth C. Molina  
University of Southern Mindanao  
Dean, College of Veterinary Medicine

Dear Dr. Molina,

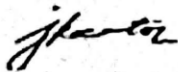

Greetings.

We are pleased to provide feedback on the performance of Veterinary Technology graduates namely Gayle Estardo, Bridget Limos, Irene Ombrete, Glyzel Claire Tautho, Veen Deita, and Cesar John Roilo, who are currently employed in our clinic. Overall, they demonstrate competence in basic clinical procedures, animal handling, and laboratory techniques, along with professionalism and strong work ethics.

They perform well in assisting veterinarians, maintaining aseptic techniques, and ensuring proper patient care. However, we recommend further enhancement in critical thinking and confidence in handling more complex clinical cases.

We commend the university for producing graduates who are capable and prepared for veterinary practice.

Thank you and best regards,

Lowe Kecato  
Owner  
VitalPet Clinic Davao
