

AGREEMENT FOR GLOBAL SHARING AND COLLABORATION IN THE FIELD OF BIO-HEALTH

between

UNIVERSITY OF SOUTHERN MINDANAO, Philippines

and

DAEGU HEALTH COLLEGE, South Korea

This document constitutes an Agreement between University of Southern Mindanao, Philippines and Daegu Health College, South Korea, (referred to in this Agreement as "Institutions") to establish a global sharing and collaboration system in the Bio-Health field through mutual active participation and industry-academic cooperation.

We agree to cooperate faithfully as follows.

Article 1 (Objective) Establish an organic cooperative system for global sharing, collaboration, and joint technology development in the Bio-Health field based on mutual respect and trust.

Article 2 (Contents of Cooperation)

1. Exchange information and knowledge in the field of Bio-Health
2. Operate Bio-Health related global survey of demand
3. Develop a curriculum for Bio-Health educational/training courses
4. Implement Bio-Health joint technology development and joint research projects
5. Pursue industry-academic cooperation projects

Article 3 (Sincere Fulfillment) Institutions shall faithfully implement this agreement in accordance with the principle of good faith.

Article 4 (Effect of Agreement) This Agreement shall take effect from the date of signature, and shall remain in effect unless there is a notice of termination from either Institution. The contents of Agreement may be modified or changed under the agreement of both Institutions

In order to prove the conclusion of this Agreement, two copies of the Agreement are prepared, signed with each other and kept one copy each.
