AREA IX
LABORATORIES

O.1. The laboratories and shops are functional and properly maintained.

The laboratories and shops are well equipped, functional and conducive to Learning

Computer Laboratory

Information Communication Technology Center

The laboratories and shops that support the BS Management Accounting program are kept in working condition through assigned staff and regular routines. A laboratory technician or assistant, [name and position], is assigned to look after the laboratories. A Maintenance and Repair Unit, is staffed by skilled personnel, [number and trades]. It responds to requests made directly by the laboratories.

The laboratories are kept neat, clean and orderly. Supplies and materials are replenished when needed. The inventory of facilities and equipment is done each semester, and every unit is coded, listed and recorded in inventory form. Equipment and instruments are calibrated. Waste is handled through segregation, collection and disposal, so that the laboratories stay safe and sanitary.
