AREA VIII

PHYSICAL PLANT AND FACILITIES

S.5.AN AREA FOR OUTDOOR EDUCATIONAL ACTIVITIES, E.G. SOCIAL, PHYSICAL, ATHLETIC, CULTURAL, MILITARY TRAINING, ETC. EXIST.

S.5.An area for outdoor educational activities, e.g. social, physical, athletic, cultural, military training, etc. exist.

Outdoor Educational Activity Areas at USM

The **University of Southern Mindanao (USM)** provides a variety of spacious, well-equipped outdoor areas dedicated to educational, recreational, and extracurricular activities. These facilities enhance the learning experience by offering environments that foster physical activity, community engagement, and experiential learning, supporting the holistic development of students and the university community.

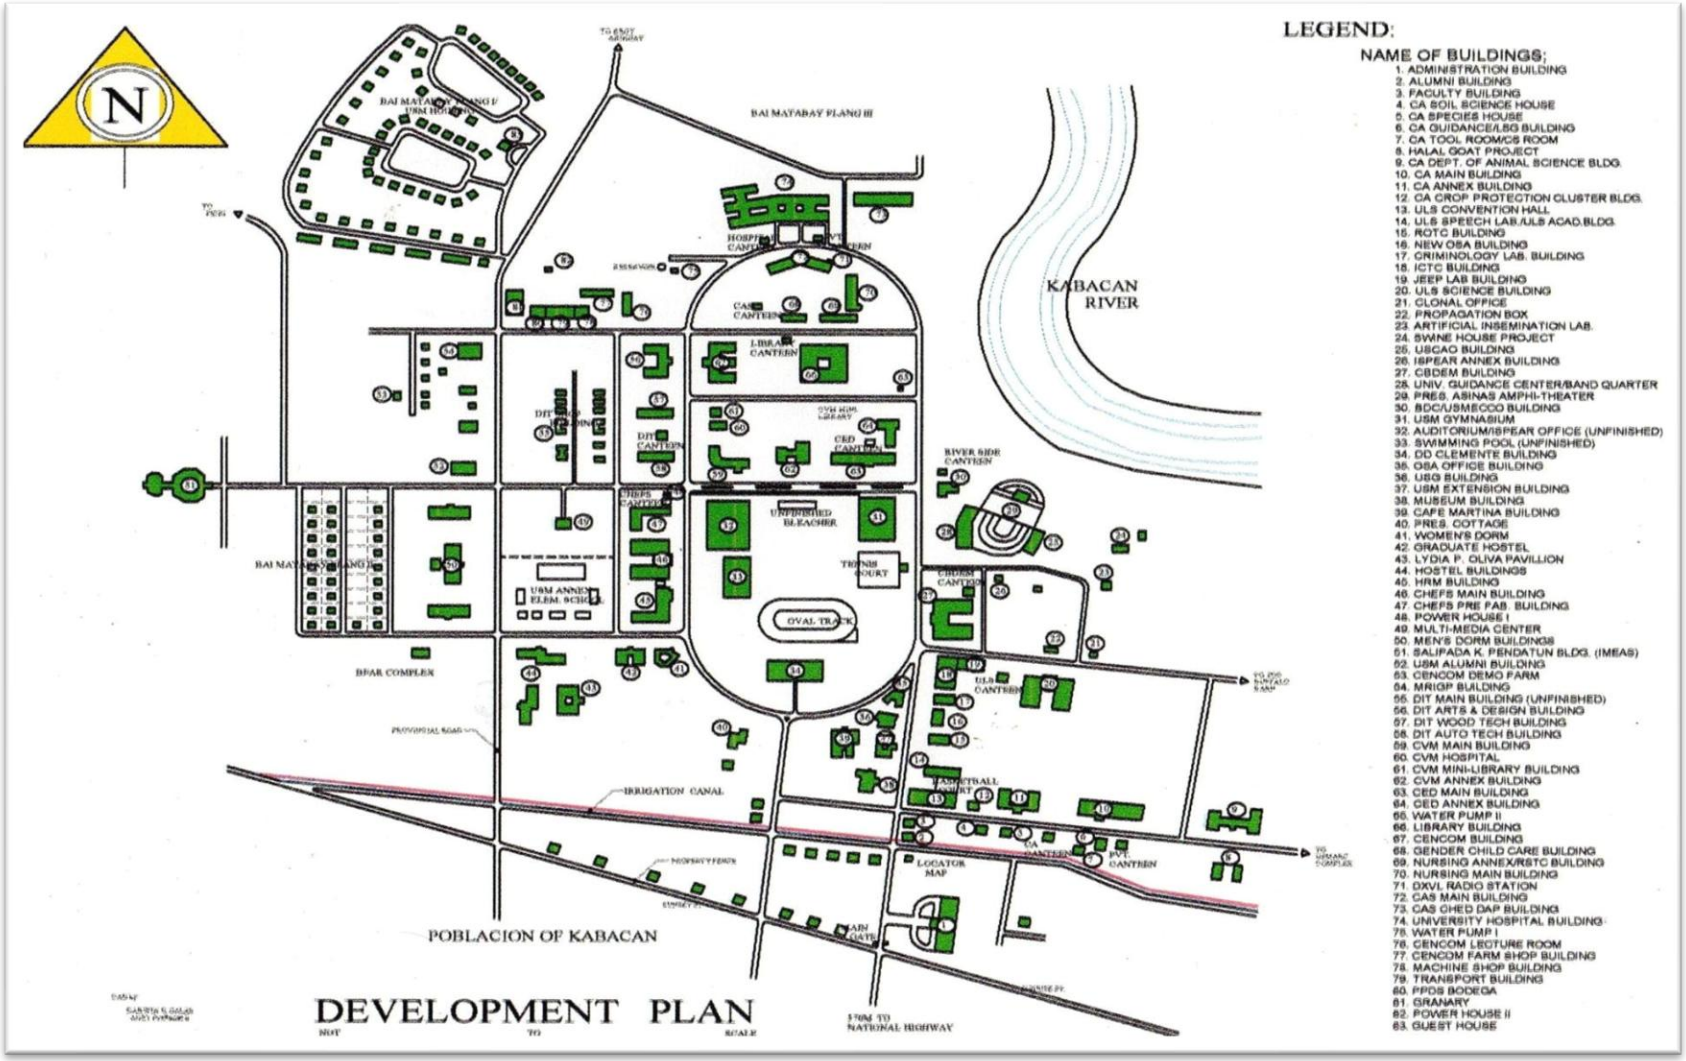

1. **USM Gymnasium and Auditorium**
    - The USM Gymnasium and Auditorium serves as a central venue for large-scale events, sports activities, fitness programs, and academic ceremonies.
    - Equipped with seating for spectators, adaptable space for multi-sport use, and essential amenities, the gymnasium is ideal for physical education classes, athletic training, and intercollegiate sports competitions.
    - The facility also supports non-sporting events such as career fairs, exhibitions, and academic presentations, promoting diverse uses for both educational and community-building purposes.
2. **Open Track and Field**
    - The open track and field facility provides a professional-quality environment for running, athletics training, and physical education classes.
    - Designed with multiple lanes for sprinting and distance running, as well as areas for field sports like soccer, long jump, and discus throw, the track and field area support athletic events and casual fitness activities.
    - This space encourages students, faculty, and staff to engage in regular exercise and promotes team sports, enhancing physical wellness and teamwork skills.

3. **Spacious College Vicinity Areas**
    - Each college within USM is designed with spacious, open vicinities that can be adapted for various learning activities, group discussions, and small-scale events.
    - These open areas encourage spontaneous learning interactions and provide opportunities for students to engage in collaborative projects, outdoor lectures, and informal study sessions.

- Landscaped gardens, shaded benches, and well-maintained walkways in these areas make them ideal for a relaxed yet productive educational setting.

4. **Open Field Amphitheater**
   - The open-field amphitheater offers a unique outdoor setting for performances, ceremonies, and interactive learning activities.
   - With tiered seating and an expansive stage, the amphitheater accommodates theatrical performances, concerts, award ceremonies, and outdoor movie nights, promoting student engagement in creative arts and community events.
   - The amphitheater's natural surroundings and open-air design provide a scenic backdrop, enhancing the atmosphere for both educational and recreational gatherings.
5. **Botanical Garden and Green Spaces**
   - The university's botanical garden and designated green spaces serve as valuable resources for environmental science, botany, and biology studies.
   - Students and faculty can use these spaces for hands-on learning in biodiversity, plant sciences, and conservation, with direct access to native flora and ecosystems.
   - Walking paths and interpretive signage enhance these areas, making them educational resources for guided tours, research projects, and eco-focused events.

6. **Student Activity Center**
   - Adjacent to the outdoor spaces, the Student Activity Center supports a variety of recreational and extracurricular activities, serving as a gathering point for student organizations, club meetings, and recreational events.
   - This center enhances the outdoor areas by providing additional amenities like restrooms, snack stations, and shaded seating, encouraging students to spend more time in outdoor learning and leisure activities.
