CERTIFICATION

TO WHOM IT MAY CONCERN:

This is to certify that the method of Electrical Installation at the Institute of Sports Physical Education Recreation Building has undergone inspection and found to be still in accordance and in conformity to the Philippine Electrical Code.

This is to certify further that the electrical materials used such as conduits, fittings and supports, pull and junction boxes, circuit breakers and panel boards, building wires and cables, wiring devices such as wall switches and receptacles, lighting fixture, and all miscellaneous materials necessary in the complete electrical system are still in good order and safe condition which render the building fit for occupancy.

This CERTIFICATION is issued upon proof of compliance with the provisions of the National Building Code of the Philippines.

Issued this 19th day of June 2019.
