S.3. The curriculum reflects the local, regional and national development goals as well as the institution's vision and mission.

The curriculum reflects the local, regional and national development goals as well as the institution's vision and mission.

The revised BSMA curriculum directly fulfills this mandate of the institution by combining rigorous financial and management accounting courses with ethics, sustainability, and strategic leadership—producing competent professionals equipped to drive economic growth and community development in Southern Philippines.

The National Level (Philippine Development Plan 2023–2028 & AmBisyon Natin 2040): The program supports national priorities for human capital development, financial literacy, transparent governance, and economic transformation.

Regional Level (SOCCSKSARGEN / Region XII RDP 2023–2028): The curriculum aligns with Region XII's development agenda by offering specialized courses such as Economic Development, Accounting for Government and Non-Profit Organizations, The Entrepreneurial Mind, and Sustainability and Strategic Audit—preparing graduates for public financial management, corporate oversight, and regional enterprise growth.
