## OUTCOMES

O.1. At least 60% of the students enrolled in the program are able to graduate within the regular time frame.

The enrollment trend for the 3 semesters show increase in enrollment from 2nd year to 3rd year which can be generally attributed to shifters from the BS Accountancy Program. Data also shows that the retention rate of the students from 3rd year to 4th year is high in the 3 semesters presented. Almost all third year students who are shifter also graduate on time.
