## Community Outreach

***Project Pagtubay***: JPIA-USM Community Outreach Program

Project Pagtubay, launched by the Junior Philippine Institute of Accountants at the University of Southern Mindanao (JPIA-USM), is a remarkable initiative designed to guide young minds toward a brighter future. Named after the Filipino term for "guidance," the project seeks to create opportunities for children to explore, discover, and nurture their talents and aspirations. It goes beyond traditional community outreach, serving as a bridge between dreams and reality.

The heart of Project Pagtubay lies in its commitment to education and personal development. By partnering with faculty and society members, JPIA-USM creates a supportive environment where children can thrive. The project offers a variety of educational activities, mentorship programs, and interactive sessions designed to spark creativity and foster a love for learning.
