Research Excellence Shines at USM JPIA SENRAYAH Federation!

The Junior Philippine Institute of Accountants – Senrayah Federation of the University of Southern Mindanao proudly celebrates the outstanding achievements of its student-researchers in the recent paper, oral, and poster presentations. Leading the way are **Mabeth T. Alimao and Amerah Manaros**, who clinched **1st Place in the Applied Category** with their study on digital innovation in student housing management, and **Paula Dominique Garmino, and Jeannie Rebuta**, who secured **1st Place in the Social Science Category** with their research on financial position and cash flow indicators linked to SGLG awards. Both teams will proudly represent the College of Business, Development, Economics and Management in the upcoming University-Wide In-house Review competition this coming May 19.

Other remarkable achievements include **Colyn Kaye R. Javier and Chennie O. Perez**, who earned **2nd Place in the Research Poster (Social Category)** for their study on internal control and fraud hexagon elements in Cotabato cooperatives, and **Yzel Gyle S. Yray and Jessie May A. Nellas**, who garnered **3rd Place in the Social Category** with their research on determinants of financial health among publicly listed companies. Commendations also go to **Cedric Claud and John Lloyd Manimog**, who explored online fraud victimization experiences among adults in Cotabato Province, and **Gwynneth Nicole Valdez with Keesha Tate Layson**, who examined whistleblowing intentions among accounting students. The CBDEM in-house participants were likewise recognized for their active involvement.

These accomplishments reflect the brilliance, dedication, and social relevance of USM JPIA's student researchers and research advisers, proving once again that research excellence thrives within the halls of the CBDEM.

JPIANs for Academic Excellence

Recognizing the exemplary performance of our dear JPIANs as they conquered the recently concluded 7th CBDEM Student In-house Review.

The awarded researchers under basic research categories are **Kayla Clarisse Saligumba** who earned the award for **1st Best Paper**, **Jenniffer Helbero** for **2nd Best Paper**. Another medal for **Romel G. Talatala** as the **2nd Best Paper** for **Social Research Category**.

Together with them is **Mark Lester Cambas** who was also a presenter under Social Research Category

Your triumph reflects your notable efforts in pursuing academic excellence and made the whole community proud of your success.

Keep on soaring high as we wish you good luck in representing CBDEM in the University Student In-house Review.

JPIA Shines at the 8th CBDEM In-House Review

On May 9, 2025, the 8th CBDEM In-House Review featured research presentations. Under the Social Science Category, seven presenters showcased their studies—among them were four student researchers from the Junior Philippine Institute of Accountants (JPIA).

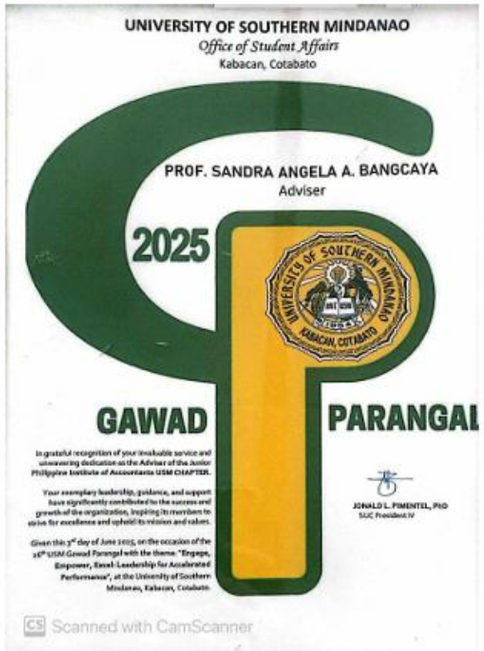

JPIAns brought pride as Raisa Lidasan, a 4th-year BS Accountancy student, secured 1st Place with her study titled, "*The Fraud Pentagon: Red Flag Indicators of Fraud in Private and Government Sectors*". Kyla Charmaine Rosario, also a 4th-year BS Accountancy student, earned 2nd Place with her research entitled, "*Development of University Student Government—Commission on Audit (USG-COA) Audit Manual*".

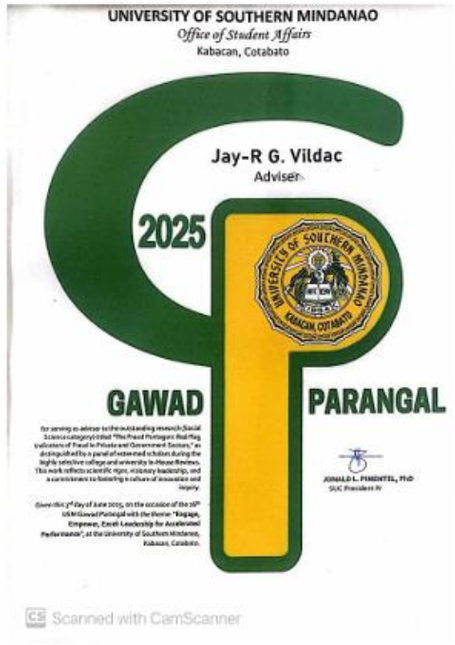

Also representing JPIA were Chrysler Jean Canag, with her study "*Bookkeeping Practices of Micro Enterprises In Kabacan: A Basis for Capacity Building Extension Project*", and Alleona Jasper Senarillos, with "*Quantifying the Factors Affecting Personal Finance Management of Working Students in University of Southern Mindanao*". Both are 4th-year BS Management Accounting students who delivered commendable presentations of their respective studies.

Lidasan and Rosario will represent the College of Business, Development Economics and Management (CBDEM) at the upcoming USM In-House Review on May 30, 2025, together with one researcher from the Agribusiness program.

The JPIA-USM congratulates all presenters for their dedication and hard work. This achievement reflects the continued commitment of JPIAns to academic excellence.

Spreading smiles, one child at a time ✨

Initiated by Keziah Lynn Dela Fuente, The Junior Philippine Institute of Accountants – USM Chapter proudly launches *Project Beyond the Ledger*: *Crediting Smiles*, *Empowering Futures*, an outreach initiative dedicated to supporting the children of Mindanao Children's Library Foundation Inc. Through school supplies, hygiene kits, and meaningful learning activities, we aim to inspire hope, promote well-being, and empower young minds for a brighter tomorrow.

Because JPIA-USM is not only about balancing books, it's also about creating positive impact in the community. Together, let's go beyond the ledger and make every smile count.

Project Pagtubay: JPIA-USM Community Outreach Program

Project Pagtubay, launched by the Junior Philippine Institute of Accountants at the University of Southern Mindanao (JPIA-USM), is a remarkable initiative designed to guide young minds toward a brighter future. Named after the Filipino term for "guidance," the project seeks to create opportunities for children to explore, discover, and nurture their talents and aspirations. It goes beyond traditional community outreach, serving as a bridge between dreams and reality.

The heart of Project Pagtubay lies in its commitment to education and personal development. By partnering with faculty and society members, JPIA-USM creates a supportive environment where children can thrive. The project offers a variety of educational activities, mentorship programs, and interactive sessions designed to spark creativity and foster a love for learning.

One of the key objectives of Project Pagtubay is to provide children with the supplies and resources they need to succeed. Through workshops and hands-on activities, participants learn essential skills like teamwork, problem-solving, and critical thinking. These skills not only prepare them for academic success but also build the foundation for future leadership roles.

The impact of Project Pagtubay is evident in the enthusiasm and energy of the children who participated. As they engage with mentors and peers, they gain confidence and develop a sense of purpose. The supportive community fostered by the project helps them realize that their dreams are within reach.

The success of Project Pagtubay is also a testament to the power of collaboration. JPIA-USM's partnership with faculty and society members ensures that the project has a broad reach and a meaningful impact. Together, they create a network of support that extends beyond the classroom, showing children that they are not alone on their journey.

As Project Pagtubay continues to grow, its founders and volunteers remain dedicated to their mission: guiding young minds toward success and helping them achieve their full potential. The project's name, "Pagtubay," reflects its core belief that with the right guidance, every child can achieve greatness. By creating a platform for exploration and discovery, Project Pagtubay is helping to build a brighter future, one child at a time.
